Research and Writing assistance for a project on nucleanonproliferation, safety, and security risks

	Research and Writing assistance for a project on nucleanonproliferation, safety, and security risks
-	Research and analyze open source articles to draft talking points for use with foreign interlocutors to tell a story about risks associated with Russia's nuclear reactors.
Country	United States

Project Description

Review English-and Russian-language publications and search documents provided by the State Department to gather open source references related to the nonproliferation, safety, and security risks associated with Russia's civilian nuclear reactor program. Draft points for use with foreign partners.
